

# MIQvet

A revolution in radiology.

June 7, 2019

**MIQVET**

# MIQVET, mission statement.

MIQVET

**The aim of the MIQvet project is  
to facilitate diagnosis in veterinary  
radiology by revealing as many  
details as possible in any X-ray image.**

# What details do you want to see?

The cat skull example

MIQvet

2

MIQvet, the cat skull

- ▶ The same cat.
- ▶ The same X-ray tube and CR detector.
- ▶ Different settings for kV and mAs.
- ▶ Both images with maximal post processing for optimal quality.
- ▶ In the second image the tracheotube had already been removed.
